

# Depression Quiz - Adolescent

Everyone feels sad or down from time to time. Depression is more than sadness. It is a mood disorder that can cause problems in your day to day life, low energy, tearfulness, sleeping problems, changes in your appetite, and sometimes thoughts of suicide. Many people experience depression, and there is help available. People with depression can feel better and live full, active lives.

This interactive quiz can screen for possible depression symptoms in adolescents age 11 to 17. For each question below, choose one option (Not at all, Several days, More than half the days, or Nearly every day).

Over the last 2 weeks, you have been bothered by any of the following problems:	Not at all	Several days	More than half the days	Nearly every day
